PVA Flakes Size 1

Decorative Vinyl Colour Chips / Flakes

Flakes, also known as colour chip or fleck, are composed of water-based resin materials, inorganic minerals, additives and various pigments.

They are integrally pigmented, brilliantly coloured, random in shape, sized within a standardised range and custom blended with infinite options to achieve optimal appearance and texture qualities with a resin-based flooring or wall-coating system.

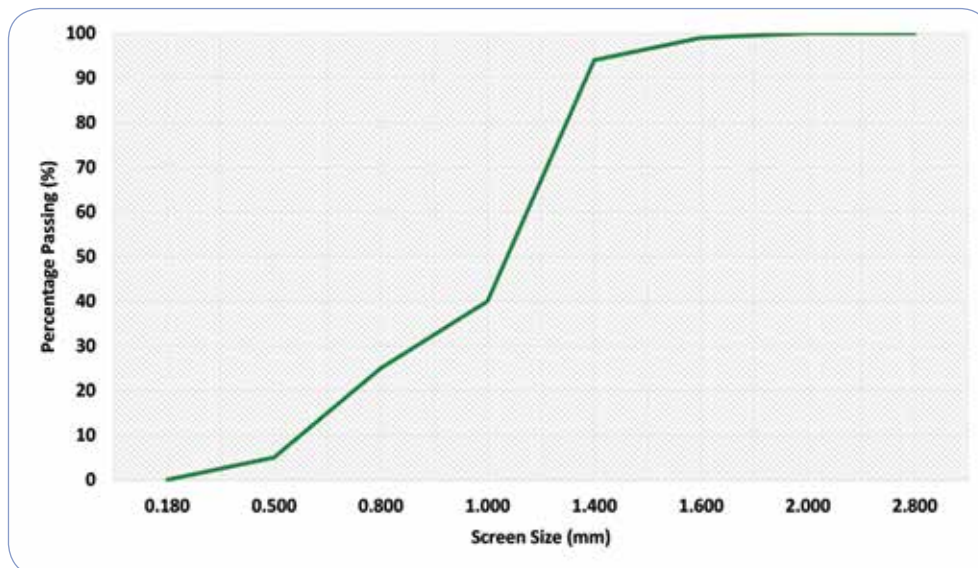

Commodity Code

3206 497090

Standard Colours

See www.boud.com for the latest range of standard colours and blends

Particle Size Distribution

Packing

20 Kilo cartons

Issue 1 March 2016
